Coconut is known to possess anti-fungal properties. For this reason it can be helpful to include both coconut oil and coconut milk (very low in carbohydrates) on a Candida-control regimen. The naturally sweet flavor of coconut is a pleasant addition to a low carbohydrate dietary program such as this.

Selected Snack and Condiment Recipes

Roasted Nuts or Seeds

Heat oven to 325 degrees. Place nuts or seeds in a shallow baking pan, in one layer. If they are various sizes, you may wish to roast separately as cooking times will vary (larger pieces like almonds or hazelnuts will take longer than sunflower seeds). Stir occasionally to cook the pieces evenly. Watch carefully to prevent burning. Mixture is done when nuts darken just slightly and give off a nutty aroma. Cool and store in an airtight container.

Walnut Spread – yield 1 1/4 cups

1 cup garbanzo beans (chickpeas), drained (reserve liquid)
1/2 cup chopped walnuts
1/2 cup basil leaves
2 Tablespoon olive oil
2-3 teaspoon lemon juice
Dash salt and pepper

Drain beans and reserve liquid. In a blender or food processor, combine beans with 2 Tablespoons bean liquid and remaining ingredients. Cover and blend until smooth. Add additional liquid as needed and scrape sides of bowl periodically. Use as a dip for raw veggies and store in refrigerator. Use within in 5 days.

Roasted Garlic

In any quantity desired, cut the root (bottom) side of the garlic bulb off so that it has a flat even surface and so that the cloves are now exposed. Add 1/4 - 1/2 teaspoon olive oil and rub over the cut area and around the outside. Wrap them in foil, placing root end up (cut end with olive oil up), or place in a garlic baker (which can be purchased in kitchen stores) for approximately 35-45 minutes at 350 degrees. Add roasted garlic to dressings, soups, and salads – or use as a spread.

Roasted Red Peppers

In any quantity desired, place red peppers on a lightly greased cookie sheet and place in the oven on “broil.” As the skin blackens, turn to the other three sides. Do not allow peppers to burn through to the inside. You just want to darken the outside. When the peppers are blackened on all four sides, place in a paper bag and seal for 10 minutes to “sweat”. After cooling, gently remove the charred skins. As you do this, save any juice that accompanies the peppers. Cut into

chunks or strips and marinate in olive oil and garlic slivers. Serve as a garnish for green salads, or mix into tuna or chicken salad.

Tofu Mash

1/4 pound tofu

1-2 teaspoons tahini

Put ingredients in a food processor and blend until smooth. Add a touch of liquid if necessary to allow for better processing. Serve with vegetables.
